FINAL MEETING IN SPAIN

We are happy to announce that **Formative Footprint** in Valladolid, Spain hosted the final meeting of our SUSTAIN project!

Formative Footprint convened a meeting on **January 31st**, whereby participants included Mundus, **the Project Coordinator**, Themistoklis Private School, Atermon, Asserted Knowledge - AKNOW, and the Universität Vechta.

We had a great chance to get together one last time and work on the last elements of our project.

We talked about the best ways to spread the word about the Minecraft game to educators and schools, as well as how to make sure the outcomes are long-lasting.

Recap of the final meeting

MULTIPLIER EVENT IN GREECE

On February 23, 2024, **Themistoklis Primary and Secondary School in Greece** hosted the **SUSTAIN multiplier event**.

Asserted Knowledge (AKNOW) and Themistoklis worked together to organize the event. The productive collaboration among participants, the necessity for in-depth conversations, and the eagerness of the kids to spend more time playing Minecraft games meant that the event lasted longer than planned. This extended involvement is a definite sign of the event's success and the good effects it had on the attendees. It shows the sincere interest and enjoyment felt by individuals participating, in addition to the efficiency of the joint efforts.

STAY TUNED FOR...

The rest of the partners from Spain ,The Netherlands and Germany are in the process of organizing their Multiplier Events at national level.
